The overall goal of HSP is to successfully identify homicide survivors as actual crime victims, and to provide therapeutic grief and complicated bereavement counseling, as well as crisis intervention, justice system education, and any other needs which the survivors might require on a short or long-term basis. The Homicide Survivors Program assists children and adolescents who witness violence, as well as adults. HSP routinely cooperates with other organizations to enhance its activities. These organizations include Crisis Services, District Attorney's' Offices, Food Bank, Hospice Family Care, MADD, Mental Health Centers, Police & Sheriffs' Departments, and local physicians.

The Homicide Survivors Program will use the funding provided by the Golf Classic to meet the needs of homicide survivors and expand services to further assist children.

Current goals include:

- To provide individual counseling, as well as group therapy for survivors.
- Assist child survivors who have witnessed a murder or who are co-victims through relation.
- Help survivors increase their knowledge and understanding of the criminal justice system.
- Train and communicate with professionals who provide assistance to victims in order to improve services.
- Increase public awareness of the prevalence and impact of murder in our society.
- Facilitate monthly meetings of adult and children's support groups.
